

Welcome to CAT'S BIJOUX!!!

**SALE 25% OFF on all jewellery.**

The company was founded 10 years ago when its creator, an inveterate collector of minerals and fossils, had the idea of creating jewels made of precious and semi-precious stones. Exceptional jewels, timeless, precious, and each one unique, gold or silver-mounted as well as 20-micron gold plated. Jewels of the greatest quality, class and finish, handed with Certificates of Guaranty (10 years) and care advice...

Cat's creates models adapted to your outfits. More than 500 pieces are available... 30 new models are presented every 2 weeks on our site... And your inquiries will always find a quick response for even your most personal creation...

If you happen to be in Paris, Fanny Liautard, 13 rue Saint Florentin, 75008, Tel: (+33) 0142868284, will have the honor to show you models for that special occasion, evening or wedding... If you happen to be in Marseille, CAT will welcome you personally in her workshop where you will be able to discover for yourself her "wonders" ...

To wear a CAT jewel is truly a privilege... Complete collection available on demand by e-mail...

**Looking forward to answer your requests, Catherine Bissier.**
